leading to better patient outcomes and safety. What is an example of a scenario-based critical thinking question for nurses? An example is, 'A patient with diabetes presents with signs of hypoglycemia. What steps will you take to manage this situation?' This assesses the nurse's clinical judgment and intervention planning. Why are hypothetical questions valuable in nursing critical thinking assessments? They challenge nurses to apply their knowledge to new or unusual situations, fostering adaptability, quick thinking, and comprehensive clinical reasoning. How should nurses prepare for critical thinking questions in interviews or assessments? Nurses should review common clinical scenarios, practice analyzing situations systematically, and stay updated on best practices to confidently demonstrate their reasoning process during evaluations.
